The Randolph-Macon Pre-Idency. The general impression among leading Methodists in Norfolk is that the Rev. W. J. Young, D. D., pastor of Epworth M. E. Church, of this city, will be elected president of Randolph-Macon College, to fill the vacancy caused by the resignation of Rev. Dr. Kern, who has accepted the chair of "Practical Theology" in Vanderbilt University. It is not yet known whether Dr. Young will accept the place, though many think he may be prevailed upon to do so. Should he, however, accept the Randolph-Macon presidency, he has given assurance to his people here that he will continue his pastorate at Epworth, filling his pulpit regularly until the close of the conference year in November.

FROM ADMIRAL DEWEY.

ACKNOWLEDGEMENT OF A LETTER FROM ONE OF HIS NORFOLK ADMIRERS.

Mr. Edward Hamilton Dunbar, of this city, has received a letter from Admiral George Dewey, acknowledging the receipt of a letter enclosing the brief words of an old-time hymn called "Dewey."

Mr. Dunbar was named for Edward Hamilton, the old-time famous composer of sacred music. He has a collection of hymns published by his grandfather in 1818, and it has been the custom of his family to assemble once each year and sing these old-time songs.

At the last reunion his eye was caught by the word Dewey as the title of one of the hymns, and he suggested that they sing it. They did so, and repeated it. Then Mr. Dunbar copied the words and music, deeming them very appropriate to the hero of Manila Bay. He sent this copy to Admiral Dewey, relating how the words had caught his eye, the circumstances of the reunion, etc. To this Admiral Dewey has replied as follows, on the handsome stationery of the United States cruised Olympia:

"Dear Sir—Permit me to thank you for the copy of music sent me in your letter of October 5th. The circumstances related interest me very much. Very truly yours,

"GEORGE DEWEY."

The words of the brief hymn are as follows:

With eye impartial, Heaven's high King
Surveys each human tribe; no earthly pomp
His eyes can charm; no wrath his favor bribe.

A GENERAL MIX UP.

MATE AND CAPTAIN FOLLOW EX-AMPLE OF THEIR VESSELS.

Thursday afternoon as the tug Bel Virginia was towing the schooners William Donnelly, Harlan W. Huston and Thomas J. Shryock, from North Carolina to Norfolk, there was some mistake in orders given or received, and the Harlan W. Huston was run aground a little distance from the canal locks in the Elizabeth. The Thomas J. Shryock ran into her and the William Donnelly got aful of the Shryock. As result of the mix-up, the Shryock had her mizzen-boom broken and bowsprit shattered, the William Donnelly lost her bowsprit and the Huston had her quarter stove. All three vessels came to Norfolk for repairs. In the discussion on the tug over the cause of the accident, it was said the mate and captain had a mix-up and the captain came out second best.

New Department Store.

It is stated that arrangements have about been completed for the establishment of a large dry goods department store on Granby street, by a prominent Washington, D. C., concern.

SUICIDE IN ROANOKE.

A WELL KNOWN RAILROAD MAN SHOOT'S HIMSELF.

Samuel M. Woodward, Jr., of Roanoke, committed suicide Thursday morning by shooting himself in the back of the head with a 32-calibre revolver, the ball entering at the base of the brain and passing through the head and lodging in the front part of the head.

Mr. Woodward was in the clerical department of the general passenger agent of the Norfolk and Western railway, and committed the awful deed of self-destruction while his fellow employees were in an adjoining room. No reason is assigned for the act, further than that he was in ill-health. He was a prominent Mason and was secretary of Murray Chapter, Royal Arch Masons. He was 47 years old and leaves a wife, two sons and a daughter. He was buried at 5 p. m. yesterday with Masonic honors.

Deceased was well connected, being a son of the late P. H. Woodward, of Staunton. He was for many years agent of the Baltimore and Ohio road at Staunton and superintendent of the division that extended from that town to Harrisonburg.

Mr. Woodward was well and favorably known to many Norfolk people, especially those employed on the Norfolk and Western.

SWIFT JUSTICE.

PRINCES ANNE POSTOFFICE ROBBERS IN THE PENITENTIARY.

The following is taken from yesterday's Baltimore Sun:

"Frank Morris, about 46 years old, and Charles Williams, about 45 years old, pleaded guilty in the United States District Court yesterday of robbing the postoffice at Princess Anne, Md., and were each sentenced to the Maryland penitentiary at hard labor and to pay a fine of \$1,000. The case is noteworthy from the fact that the men were landed in the penitentiary seven days after the perpetration of the crime. Early on Thursday morning of last week the postoffice was broken into, the safe blown open and stamps to the amount of \$470 stolen. The next day Morris and Williams were arrested at Norfolk, Va., with \$457 worth of the stolen stamps in their possession. They were brought to Baltimore last Sunday by Police Inspector Maxwell and Chief of Police Kizer, of Norfolk. Yesterday morning they were indicted by the grand jury, and not long afterward had pleaded guilty and were on the way to the penitentiary. Morris sprained his right ankle in Norfolk in attempting to escape by jumping from the patrol wagon. Since then his foot and leg have been in splints and he has been compelled to use crutches in walking. He requested to be sent to the penitentiary at Albany, N. Y., so as to be near his family, on the way to the prison he said there was nothing left for him to do but stand, since the poolrooms in New York had been closed. It is said that he and Williams are old offenders.

Frank Kelen was indicted by the United States grand jury yesterday on the charge of breaking into the postoffice at Weverton, Washington county, Md., on May 4, and stealing \$3 worth of stamps. Roden is under arrest at Martinsburg, W. Va.

NORFOLK STUDENTS.

HONORS RESTORED UPON TWO BY ROCK HILL COLLEGE.

Norfolk has several students in Rock Hill College, Baltimore, among them Mr. Patrick J. Davis and Mr. John B. Loughran, Jr., who have worthily represented their home city and won honors for themselves in so doing.

On Thursday the forty-second annual commencement of this college was celebrated, and the degree of Master of Arts was conferred upon Mr. Davis, one of the graduates.

Mr. Loughran won the prize medal for deportment in the junior division. Mr. Davis is a son of the late Patrick J. Davis and has many friends in Norfolk and vicinity whose good wishes will follow him.

Mr. Loughran is a son of Mr. John B. Loughran, the well-known furniture dealer, who is to be congratulated on the standing maintained by his son at school.

BURYING THE WIRES.

THE WORK OF REMOVING TELEPHONE POLES STEADILY PROGRESSING.

For some time employees of the Bell Telephone Company have been busily engaged in stripping and removing the telephone poles of this company and placing the wires in subway conduits.

The poles have now been stripped and are down and removed on West Main street to Old Market square, on Church, Granby, Chapel, Freemason, Bank and Plume streets and City Hall avenue. The wires removed have been placed in the subway conduits.

Chief of Linemen John Bonner, of the Western Union Telegraph Company, has, for the past two days, been looking after the Western Union wires taken from Bell Company poles, and transferring them to other poles.

A Pleasant Outing.

Dr. A. Week carried the boys of the Boys' Home, on Bank street, on an outing to Ocean View Thursday, where they spent the day in bathing, and innocent sports on shore. The Doctor gave them an elegant luncheon and did all in his power to add to their comfort and enjoyment. They returned at an early hour in the evening and on their homeward journey voted their host unanimous thanks.

Salt Water Coffee.

The four shipkeepers on the Naval Reserve converted yacht Siren had a poor breakfast yesterday. In some way the cook got hold of salt water and used it in the coffee with results that were not happy. The boys concluded they didn't want coffee, and fell back on water.

"To err is human," but to continue the mistake of neglecting your blood is folly. Keep the blood pure with Hood's Sarsaparilla.

It is worth your while to look into the merits of The Gale Jewelry Company's Diamond and Watch Clubs. Ninth club now forming; no installment plan, but \$1 a week.

THE FILTER PLANT

Will Be Put in Operation Inside of Three Weeks.

The Water Will Be Changed From Its Present Dirty Hue to Crystal Clearness—The Big Tanks are Up—The Work on the Canals.

Norfolk's water supply will shortly undergo a change from its present dingy, yellow hues to crystal clearness. The Water Department announces that the filter plant will be put in operation within three weeks, and for the first time in her history Norfolk people will get filtered water.

The six big filter tanks, each with a capacity for filtering two million gallons of water a day, are all in position in the filter-house, which has been fully completed. There now remains only some connections and fitting up work.

The New York Filter Manufacturing Company, whose agents are putting up the plant, guarantee that the water will be as clear as any other water after it is filtered, and besides they guarantee to cleanse it of its impurities. Ninety per cent. of the bacteria or vegetable matter will be removed by the filtration, and the color will be very appreciably changed.

The Water Department counts on big saving in the pipes after the use of filtered water is begun. The vegetable and organic matter in the water as now used rusts and corrodes the pipes, almost entirely stopping them up at places. This, of course, arrests the progress of the water, and the pressure is thus lowered.

A very small quantity of alum will be used as a coagulating substance in the filtration of the water, but this will not be noticeable in the water. Many filtering plants use three or four times as much alum as will be used here, and it still has no appreciable effect on the water.

THE CANAL WORK.

The work on the two dams is about completed, and the two canals will be finished within a couple of months. The Little Creek water is said to be fresh enough for use now if it were necessary to use it. Superintendent Smith has sent a sample of it to Richmond to be analyzed so as to ascertain if it still retains any salt.

Superintendent Smith is having the basins for the filtered and unfiltered water fitted up to be ready for the inauguration of the filter system. The two small lakes at the water works will be used as these basins, the larger one to contain the unfiltered water and the smaller one the filtered water.
